Summary

Highly motivated Computer Science undergraduate at American International University-Bangladesh (AIUB) with hands-on experience in AI research and software development. Skilled in machine learning, full-stack web development, and cybersecurity fundamentals, with project work spanning web, game, and conversational AI systems. Research interests include computer vision, natural language processing, and distributed systems.

Career Objective

A position as a Data Scientist, specializing in machine learning and intelligent systems, working for a company that develops impactful AI solutions.

Education

American International University-Bangladesh (AIUB)

Expected Dec 2028

Bachelor of Science in Computer Science and Engineering (Major Focus: Data Science)

CGPA: Loading/4.00

Work Experience

Executive, Vendor Verification and Security Management, 2023–2025

BD Chefs, Dhaka, Bangladesh

- Verified vendor information and supported the onboarding of home chefs and sellers.
- Maintained vendor records and reviewed submitted information for accuracy and compliance.
- Supported security procedures and coordinated with vendors to resolve account-related issues.

Projects

AI & Robotics Landing Page

2022

- Built a modern landing page using Next.js and Tailwind CSS to present AI and robotics concepts.
- Applied responsive design and UI best practices to improve accessibility and user experience.

VirsysNFT Marketplace Demo

2022

- Developed an NFT marketplace demonstration project using Next.js, React, and Tailwind CSS.
- Implemented reusable components and clean front-end architecture for scalable development.

PixelRacer 2D Game

2024

- Developed a top-down 2D car dodging game with Three.js, JavaScript, and HTML5.
- Implemented interactive game mechanics and controls while optimizing rendering performance.

Sanda-AI Discord Bot

2025

Research Experience

Undergraduate Researcher, 2024–Present

Artificial Intelligence and Data Science Domain, AIUB

- Exploring applied machine learning approaches for real-world prediction and classification tasks.
- Studying natural language processing techniques for conversational AI and text understanding.
- Supporting research documentation, experimentation, and result analysis for academic reporting.

Skills

Programming Languages: Python, Java, C++, JavaScript

Web Development: Next.js, React, Tailwind CSS, HTML5, Full-Stack Fundamentals

Data & AI: Machine Learning, NLP, Data Analysis, SQL

Systems & Security: Database Management, Distributed Systems Basics, Cybersecurity Fundamentals

Publication

A Large Language Model is Not the Right Path to Bring Artificial General Intelligence, Dec 2024

7th IEOM Bangladesh International Conference

Achievements

- 1st Place, 10th National Scientist Mania 2022, Govt. Science College, Dhaka, for developing VirsysAI, a conversational AI system.
- 1st Place, AI Solution Competition at Notre Dame College, Dhaka, March 13, 2022.
- 3rd Place, Web Design Competition at Notre Dame College, Dhaka, using Next.js and Tailwind CSS, March 13, 2022.
- Dean's Award for Academic Excellence, Fall 2024–2025.
